

OBN E*News 06/30/2009 Online Renewal Availability Update

We have been notified that on-line renewal for nurses will not be available at this time. The state continues to work toward a resolution of the problems with the system.

Due to these problems, the Board will waive the late fees usually imposed in July for this licensure renewal period.

We are preparing paper renewal applications and will automatically mail the applications to all nurses who have not completed the renewal process. Your license and/or certificate expiration date is still August 31, 2009. As always, your renewal application must be postmarked by August 31, 2009 or your license and/or certificate will lapse.

Please do not contact the Board to request a renewal application, as we are dedicating all staff resources to expedite this special renewal application mailing.

When the Board has additional information about the status of on-line renewal and the timeframe of the mailing, we will post the information on this web site.
