HIRAM COLLEGE DEPARTMENT OF NURSING Teachout-Price Second Floor, P.O. Box 67 Hiram, Ohio 44234 (330) 569-6132 www.hiram.edu/nursing	A new, unique, fully accredited and academically rigorous generic BSN Program distinctly embedded in the liberal arts and the discipline of nursing preparing clinically competent, ethically grounded, socially and culturally responsible professional nurses with skills necessary to be critical thinkers, caring and capable leaders in the profession. Unique aspects of the program include a lab-based genetics course, an applied (evidence-based) research experience, opportunity to minor in biomedical humanities or other related area, and a global health course with opportunity for study abroad. Students applying for admission to Hiram College, and who meet the admission requirements for nursing, are afforded the opportunity to be admitted directly into the nursing major in their first year. In October 2010, Hiram's Bachelor of Science in Nursing received initial full approval for five years with no recommendations from the Commission on Collegiate Nursing Education (CCNE). Hiram's accreditation actually comes earlier than had been originally anticipated when the BSN program launched in 2007, and means that the program's first graduating class in May, 2011, will be from an accredited program.	Admission decisions at Hiram are made without regard to family financial circumstances, a policy commonly referred to as "need-blind admission." If admitted to Hiram, you will be considered for all the financial assistance you are eligible to receive. In addition, Hiram believes academic achievement and promise should be honored and rewarded. This year the College will award over \$9 million in merit scholarships and need-based grants. There are many resources available that can help make Hiram College affordable. Visit us at http://www.hiram.edu/finaid/ for additional information.

The Ohio League for Nursing promotes and fosters nursing careers through public education and information programs
 The League provides information for potential nursing students. Membership in the League is open to the general public as well as nurses.

TO BECOME A NURSING STUDENT:

1. Applicant must be a high school graduate or have passed the Graduate Equivalence Examination (GED) given by the Board of Education.
2. Select several schools with entrance requirements which you think you can meet — and contact them. RN schools generally require high school credits which include: 4 years English, 2-3 years social studies, 2-3 years math, 2-3 years science (including chemistry), 2-3 years foreign language (depending on the type of program). Requirements for PN programs may be different.
3. For those in high school it is suggested you inquire at one or more schools not later than your junior year to prepare for any special courses and/or entrance tests that may be required.
4. The Schools of Nursing will advise you:
 - a. About their own specific entrance requirements.
 - b. How to obtain a transcript of your high school academic record.
 - c. When and where to report for your pre-entrance test, if applicable, physical examination, and personal interview.
5. Take any required entrance test as early as possible in your senior year of high school.
6. Adults, post-baccalaureate students, and those persons considering a career change are encouraged to apply and generally considered on an individual basis.
7. Financial aid counseling is part of the admissions process. Be sure you discuss scholarships, grants and loans available if you will need financial aid.
8. Make an appointment to meet with the school representative and visit the schools of your choice.
